

Launching Parts Wizard application on your Scanner

Please scroll to the scanner that matches your model.

PPT (Windows):

Remove the scanner from the cradle and do the following:

Do a 3-button push by **holding down** either yellow button on the side, the green enter key, and the blue function key at the same time. **Continue holding down these buttons until you see a screen flash and display PPT8800**, then release the keys. This will restart the scanner and launch you into PartsWizard after a few seconds.

Janam XG300 (Windows):

Hold down the red power button, **located on the left-side of the scanner at the very top**, until you get the menu options for Hard Reset, Soft Reset, and Power Off. **Select Soft Reset**. The scanner will now reboot and launch into PartsWizard on startup.

MC55 (Windows):

Hold down the red power button, **located on the bottom left of the keypad, until the screen turns off**. The scanner will now reload into PartsWizard.

Janam XG200 (Android):

Remove the scanner from the cradle, this should force the scanner to launch into PartsWizard. However, if it does not, navigate to the homepage and **select the ScanWizard Icon**.

XT30 & XT40 (Android):

Remove the scanner from the cradle and click on the "Start Scanning" button. The scanner will automatically launch into Partswizard.
